The Tale of Layer Hens

Suffering from birth until death

High Tech Egg Hatching Incubator

!!
Whoa!!! What
happened to your
face?!

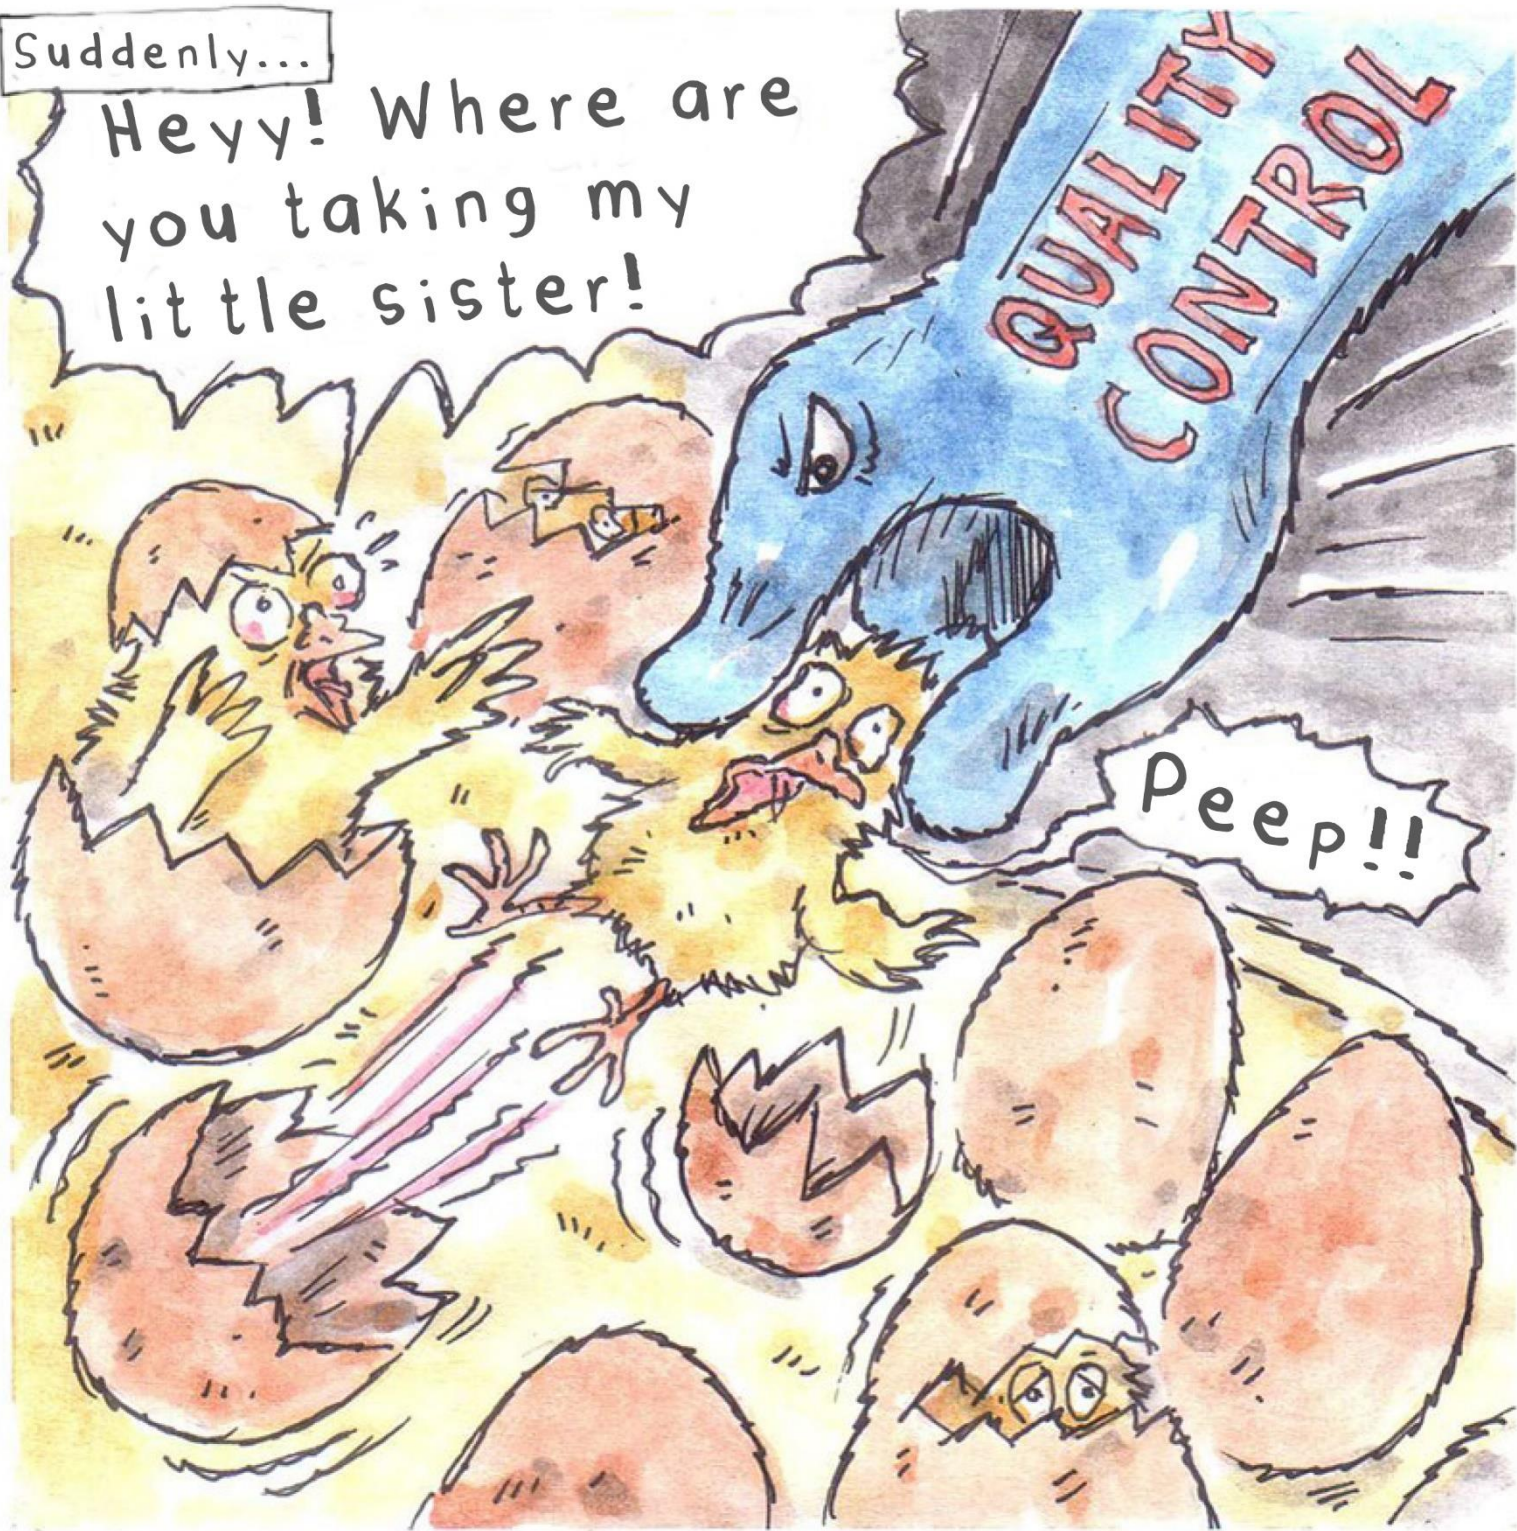

I was
born
disabled.
sist

Suddenly...

Heyy! Where are
you taking my
little sister!

QUALITY
CONTROL

Peep!!

Even in the most
high-tech egg
incubator factories,
the best success rate
is 85.58
bro!!

Peep!!

That
means...

QUAL
CON

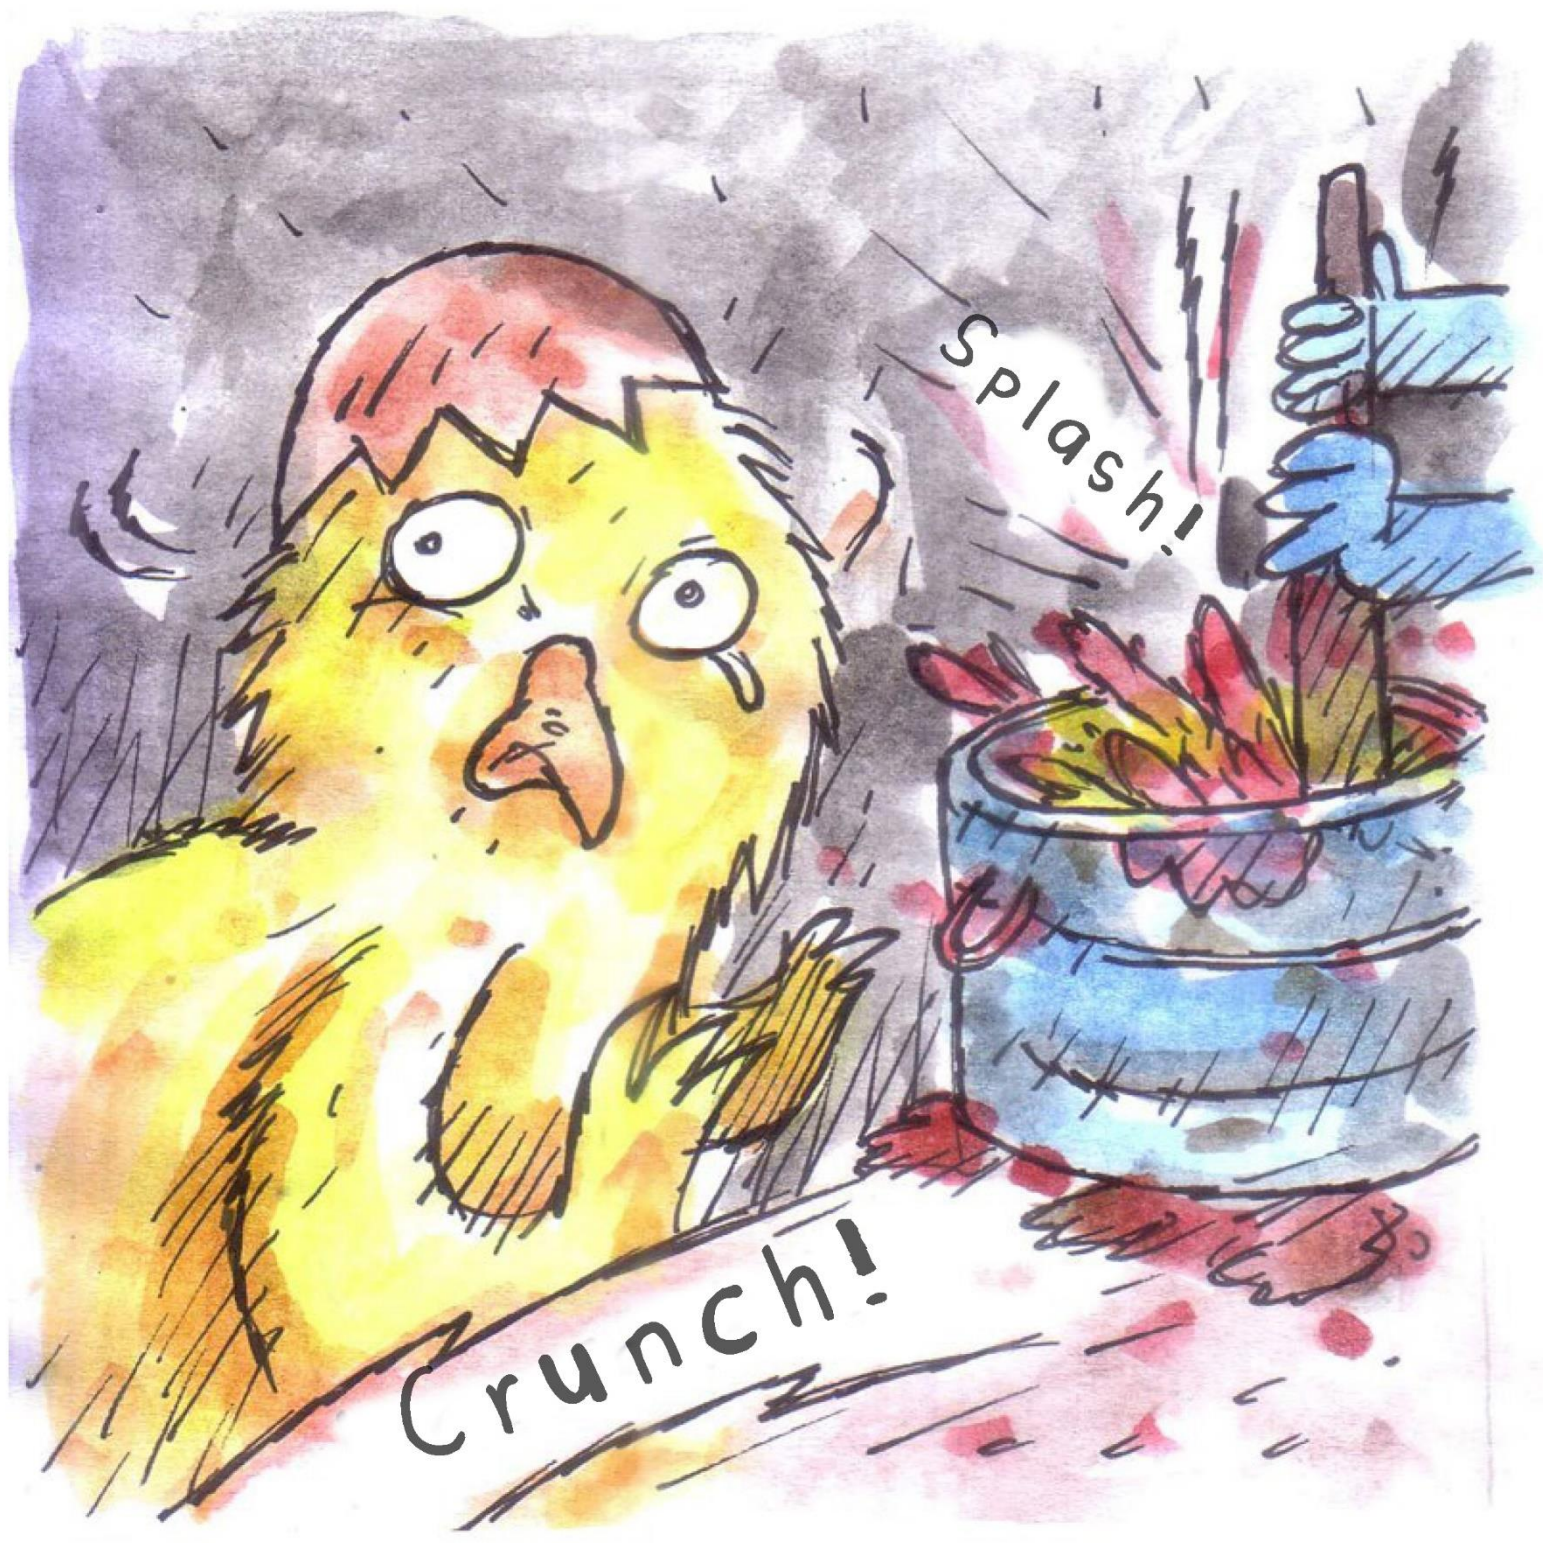

in one egg hatching
incubator with 71,280
eggs, there are 10,250
defective or dead eggs

Look at this one!! It has
no economic value, grrr!

Splash!

Crunch!

What're you
going to do
to me Uncle?

Mmm hmm,
should I tell him?

And..

Nooooo!!

CRUNCH!

This is the beak trimming machine.
*the beak trimmer

And..

Nooooo!!

CRUNCH!

This is the beak trimming machine.
*the beak trimmer

And..

Nooooo!!

CRUNCH!

This is the beak trimming machine.
*the beak trimmer

And..

Nooooo!!

CRUNCH!

This is the beak trimming machine.
*the beak trimmer

Neeeeext

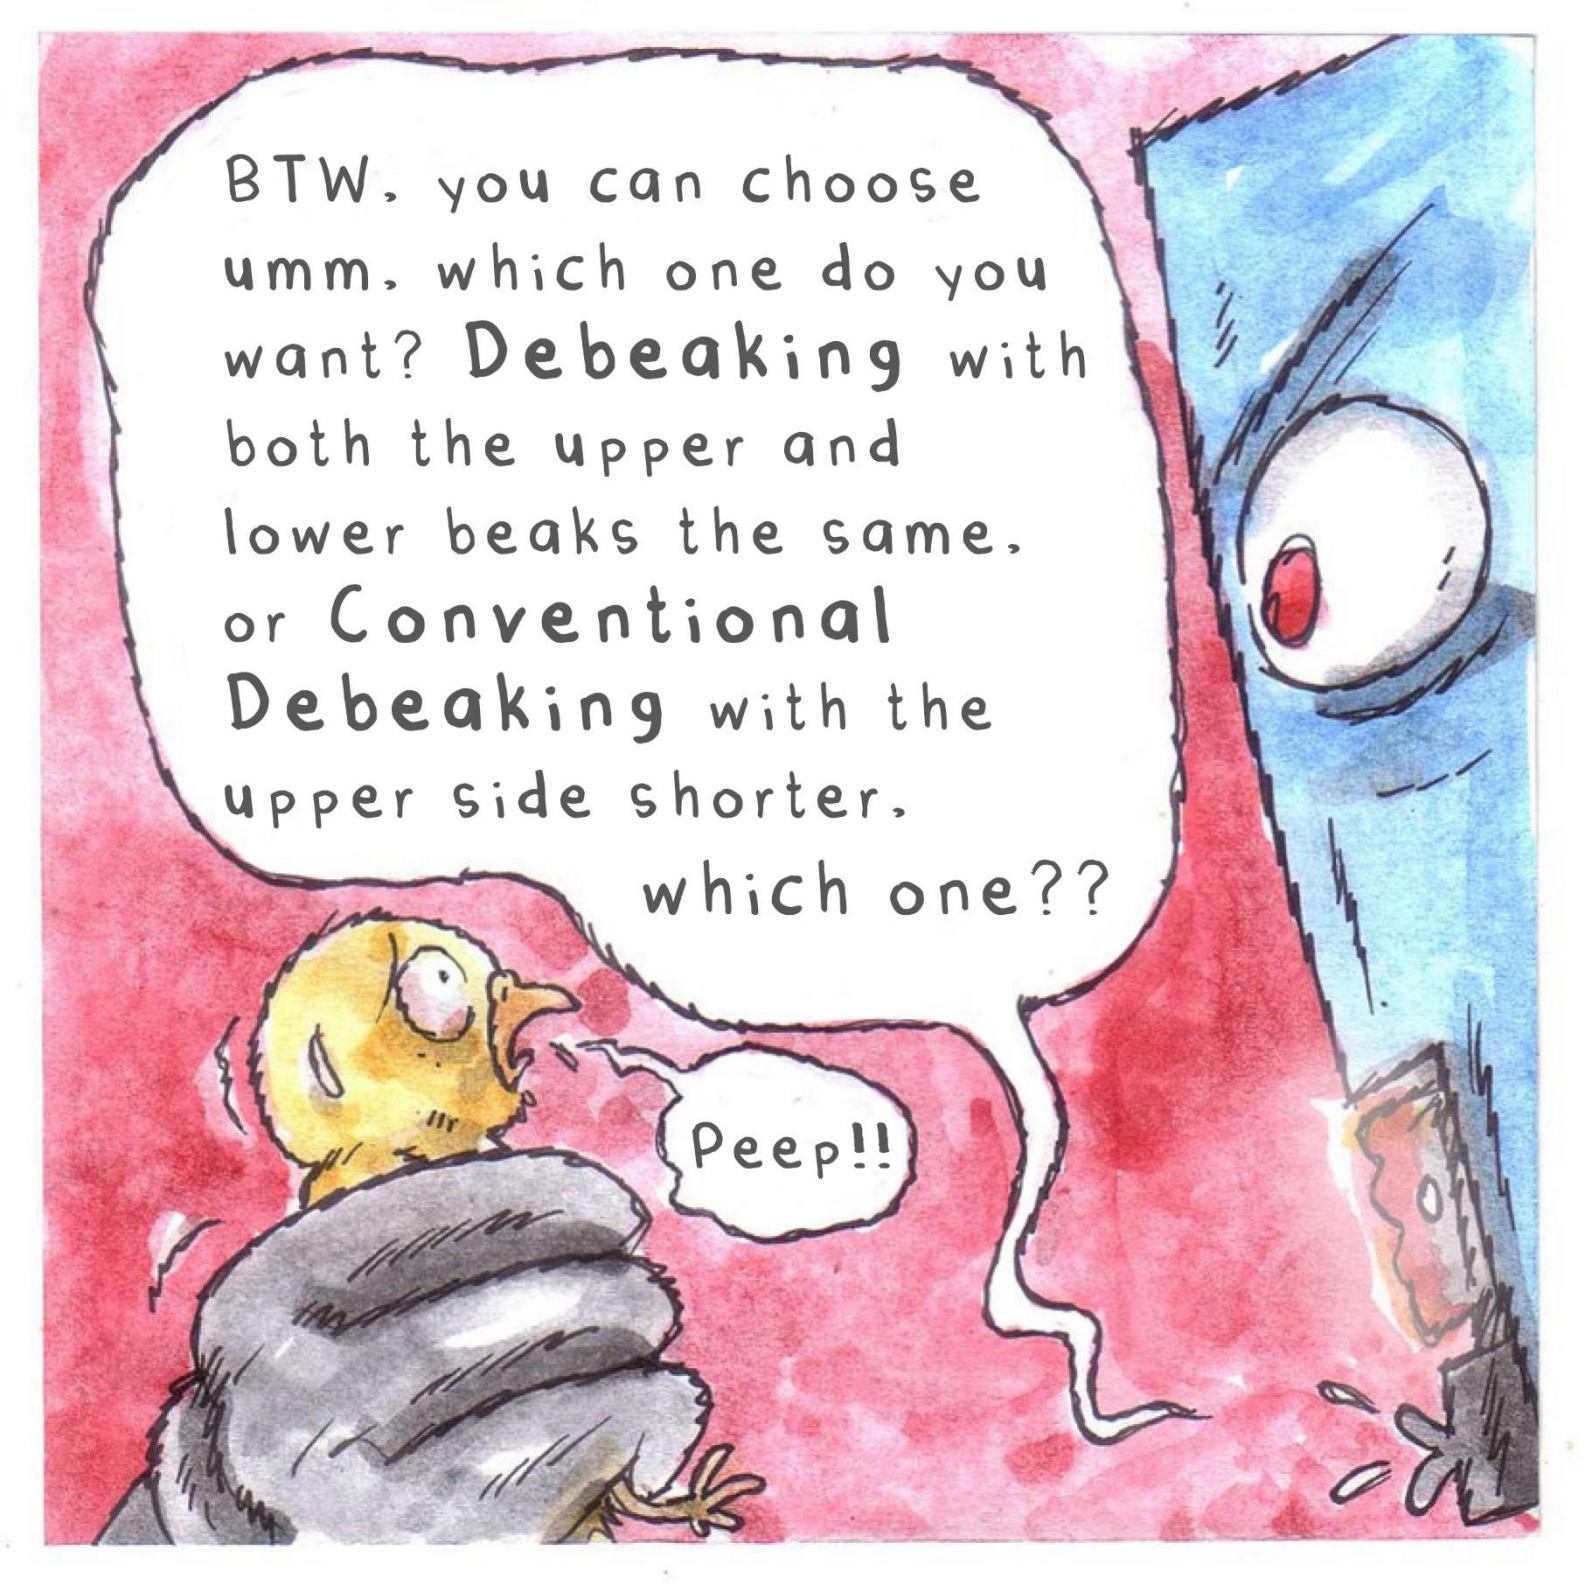

Eeeeeee!

Clank!

it hurts...

BTW, you can choose
umm, which one do you
want? **Debeaking** with
both the upper and
lower beaks the same,
or **Conventional**
Debeaking with the
upper side shorter,
which one??

Peep!!

Peep!!

Ouuuch!!!

Peep!!

Peep!!

NEXT DAY...

Weee Oooow...

Weee Oooow...

Done....
Get Ready!

zzzipp!

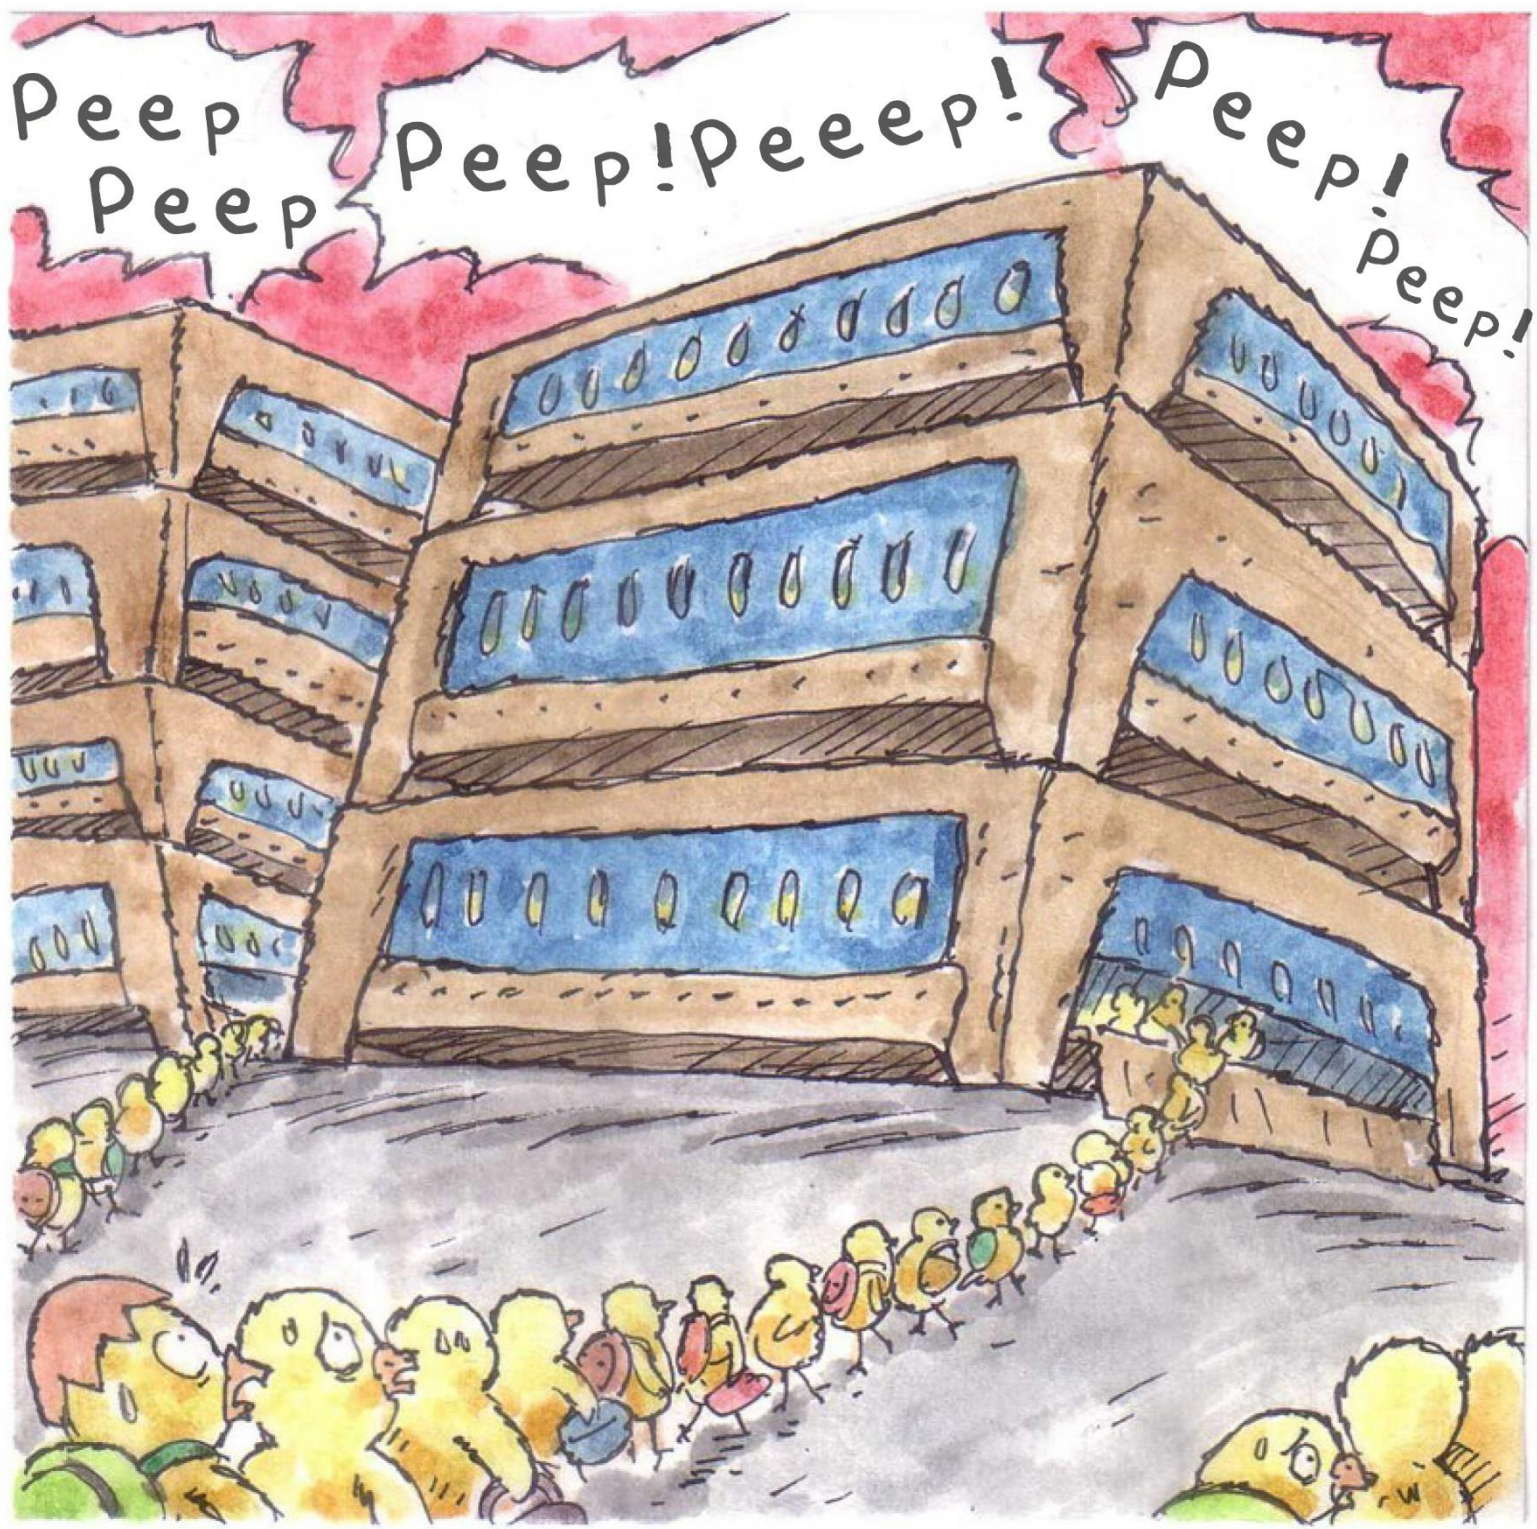

Sis, let's
go! The
crates
are here.

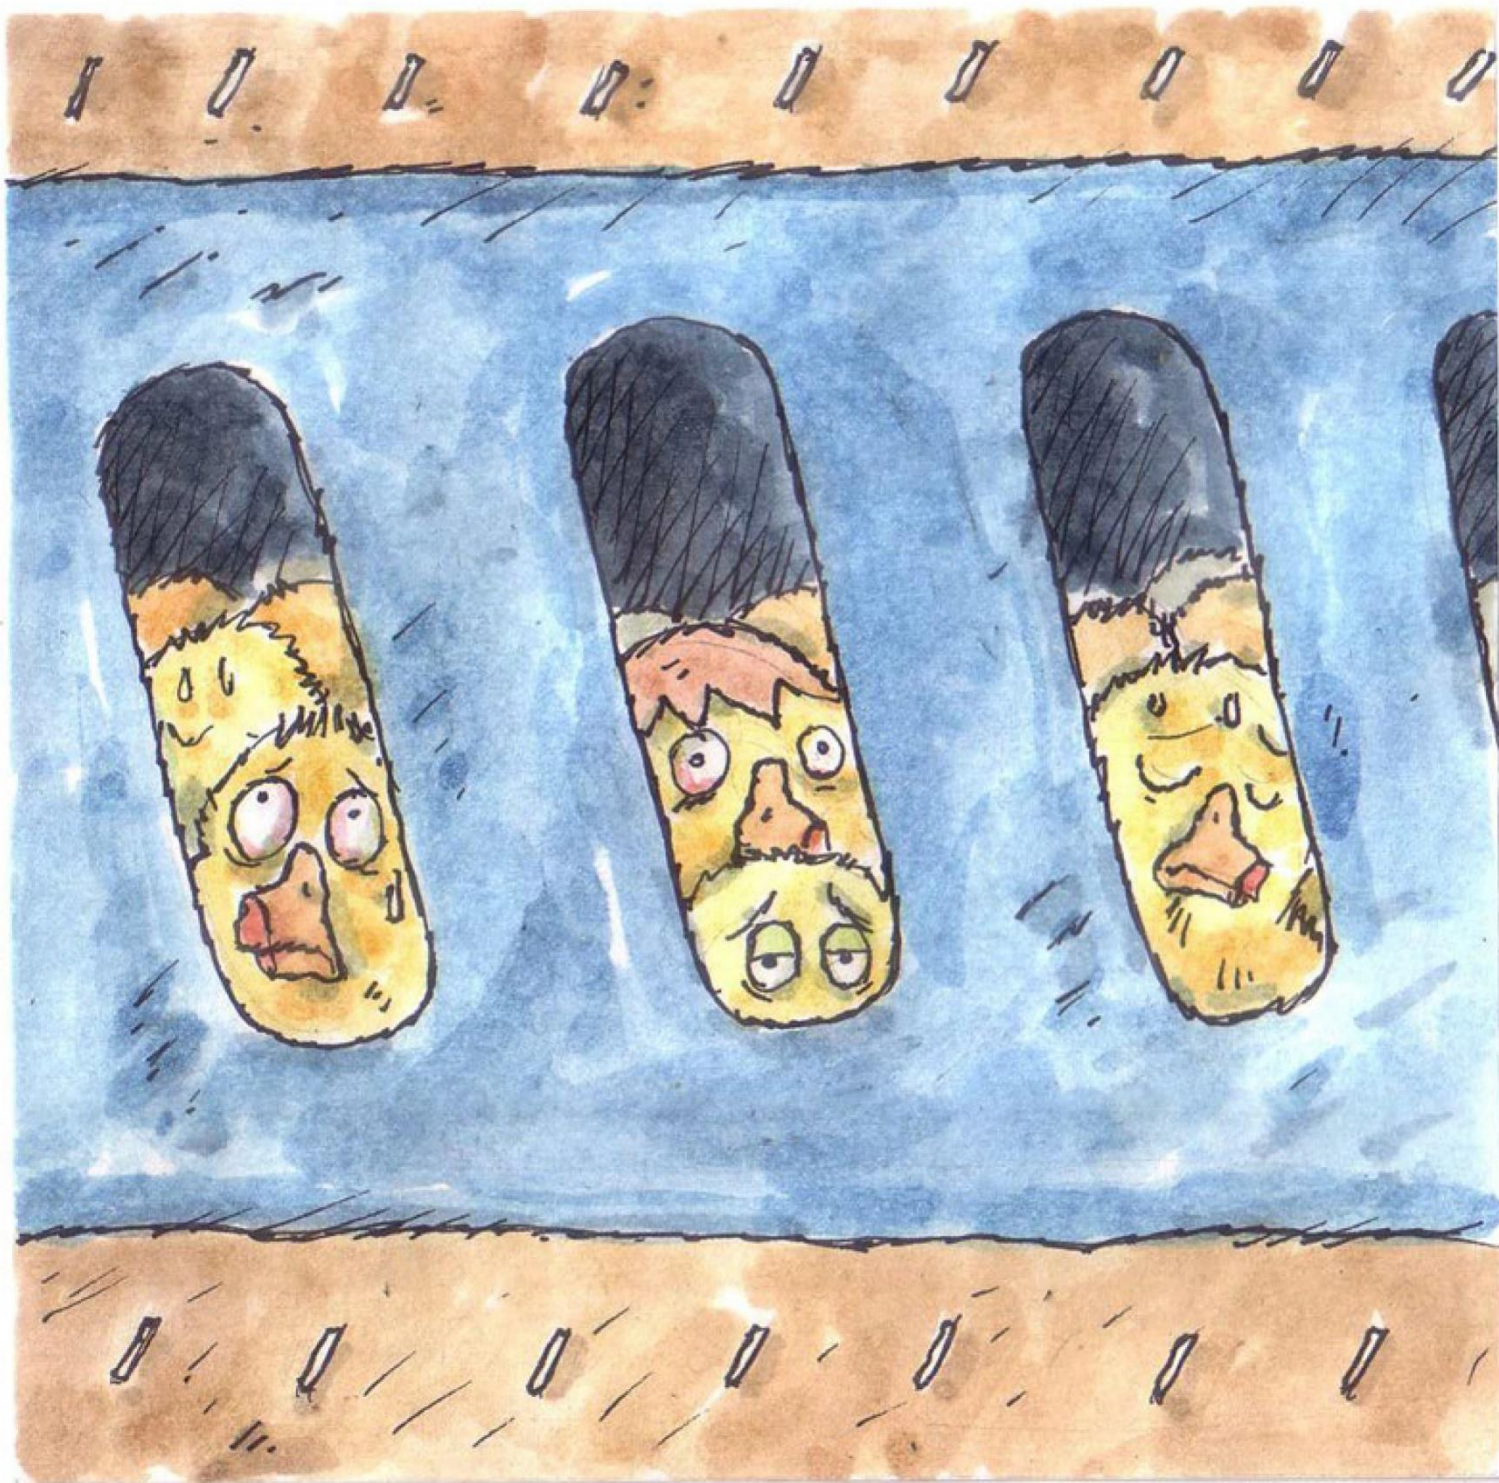

WeeeOoow...

WeeeOoow

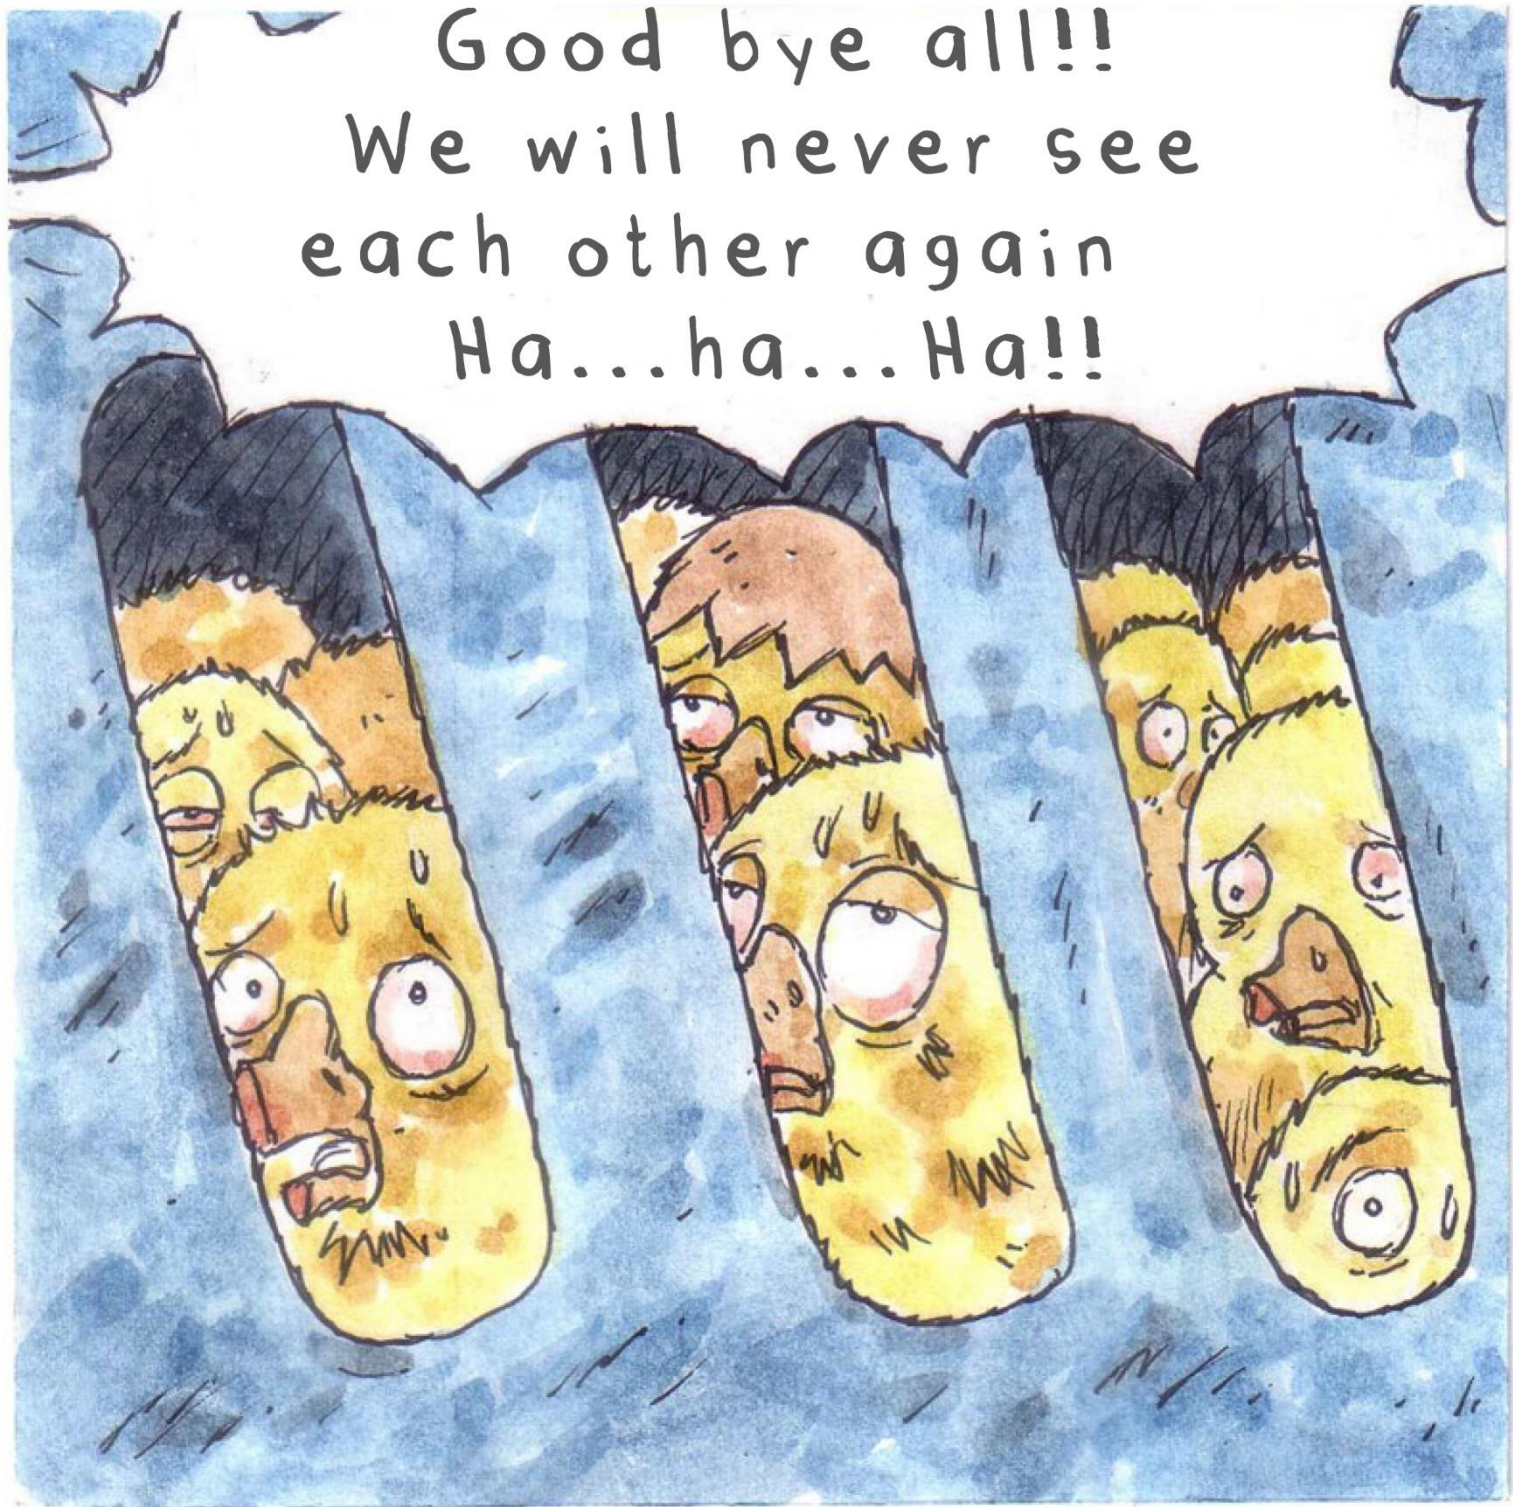

Get into the crates based on your
order in the line!! Remember,
This trip is without food and
drink, right! Faster! Get in!!!

Good bye all!!
We will never see
each other again
Ha...ha...Ha!!

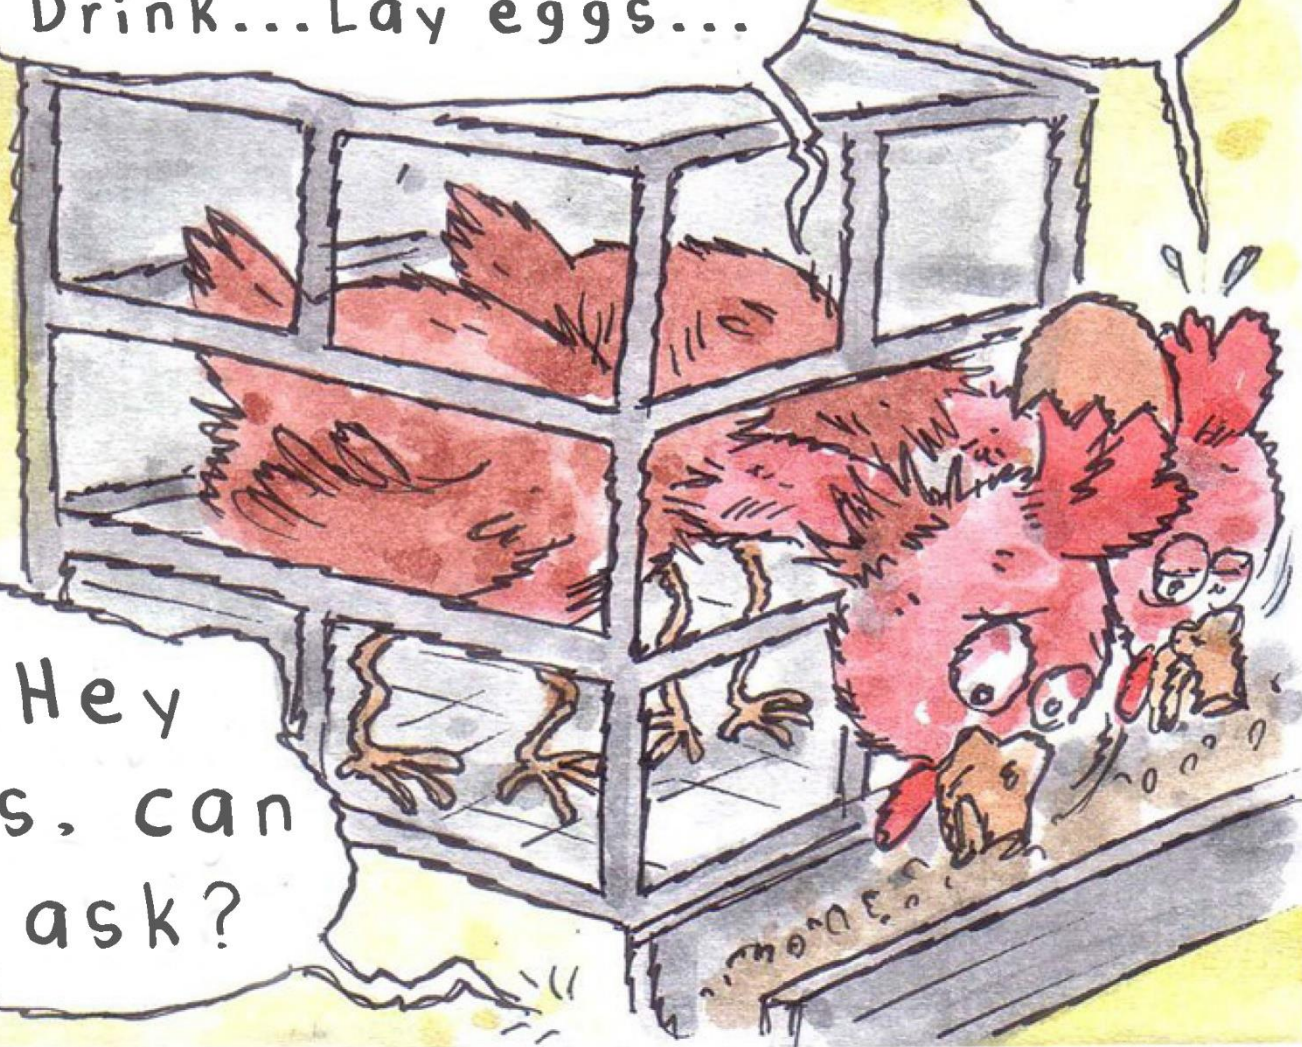

Whooooossh....!!

A few months later...

Eat... Drink...
Lay eggs... Eat...
Drink... Lay eggs...

Lay
eggs...
Eat...
Drink...

Hey
Sis, can
I ask?

What do you
want to ask?

Hmm... Isn't it
tiring just
eating, drinking
and laying eggs
every day?

Umm yeah...
You can see
for yourself.

It's so tiring...

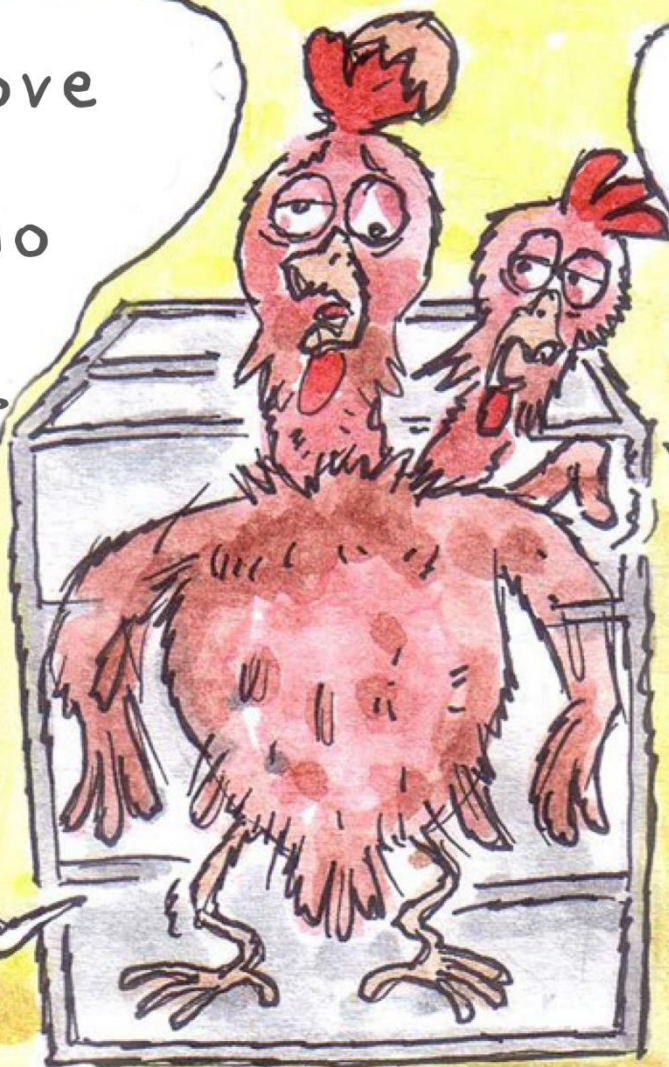

I can't move
because
there is no
space!
My bones,
feet and
wings
have
become
weak.
ouuww!

The sun is
always
shining 20
hours a
day

Hey!
Move over,
I want
to eat!!

....

so we only
sleep 4
hours a
day.

Even worse, when I start
nesting, it stresses me
out so much. I get
frustrated and crazy!

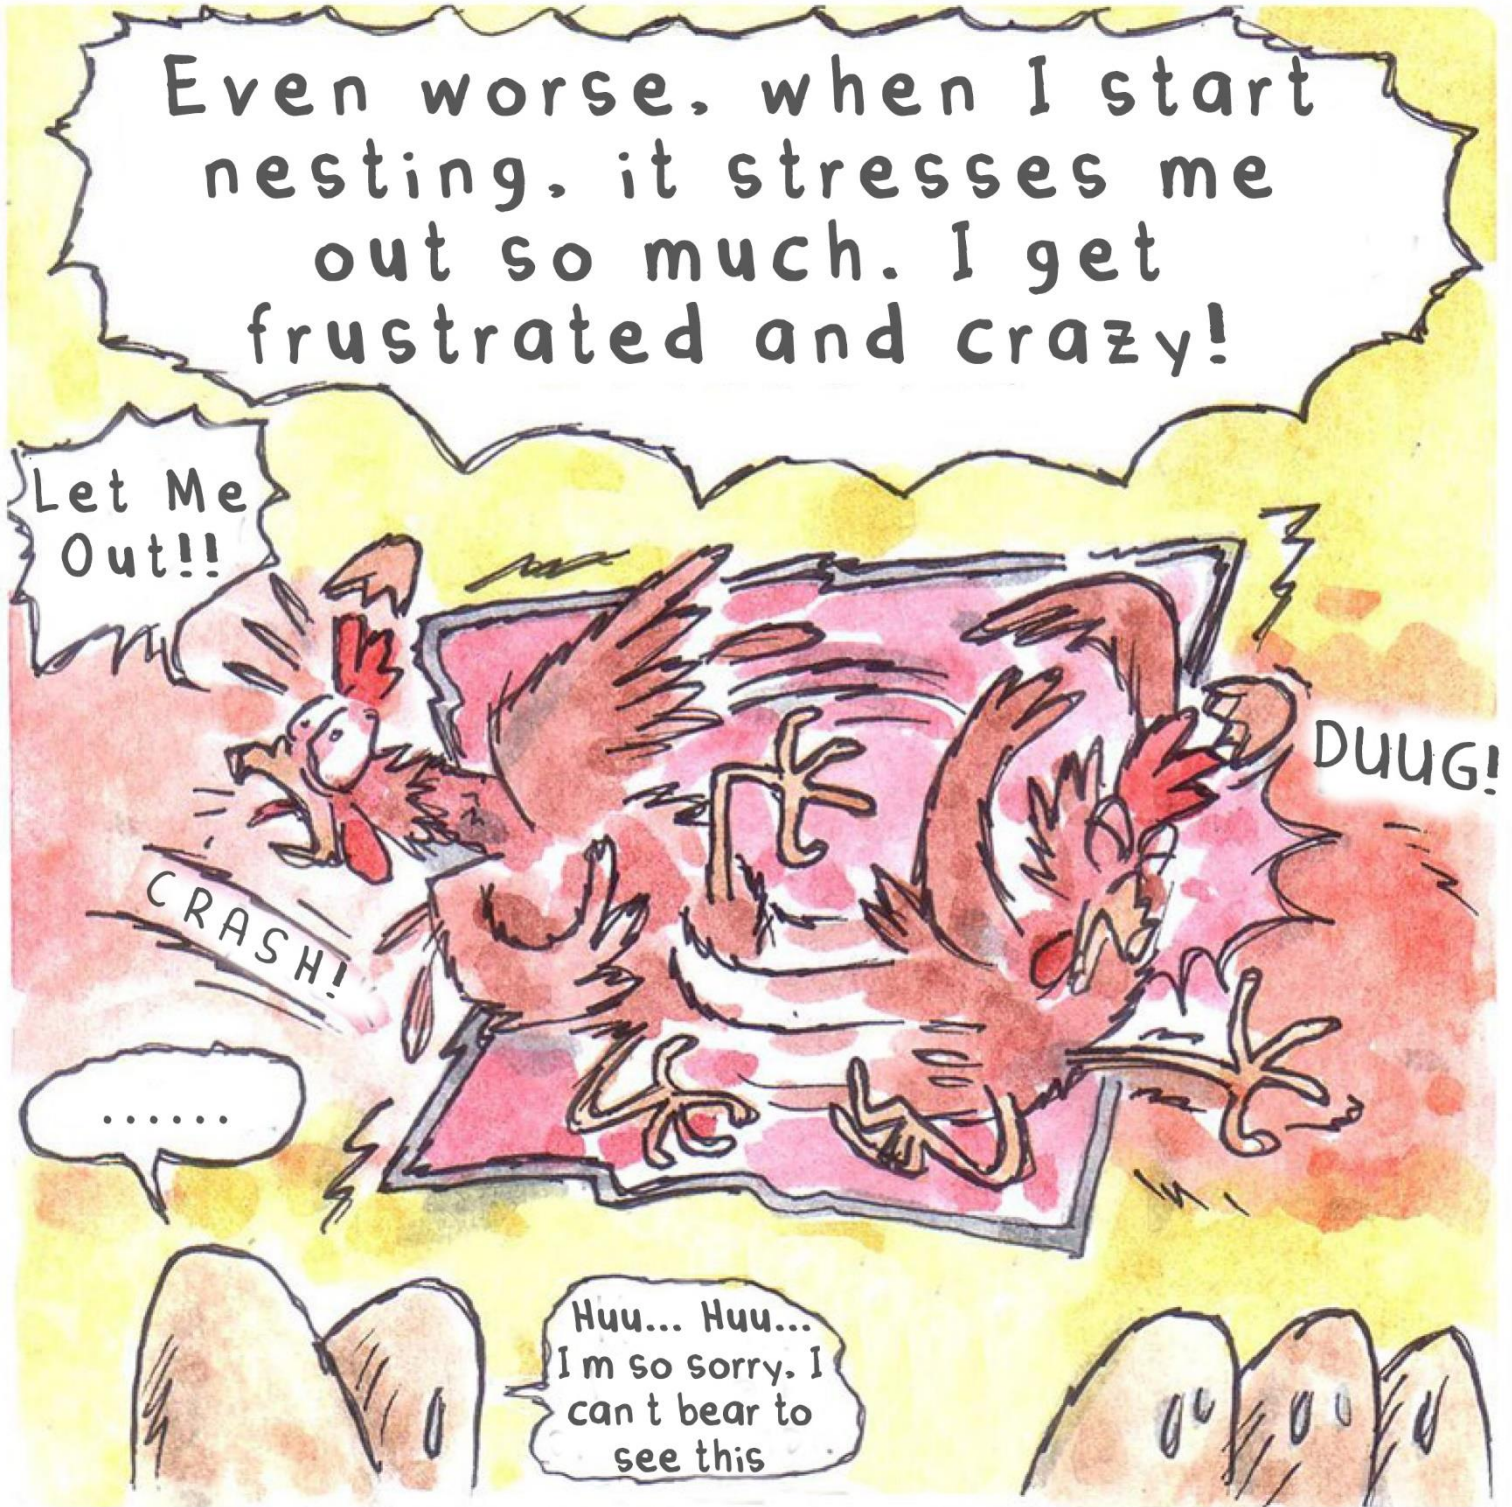

Let Me
Out!!

CRASH!

DUUG!

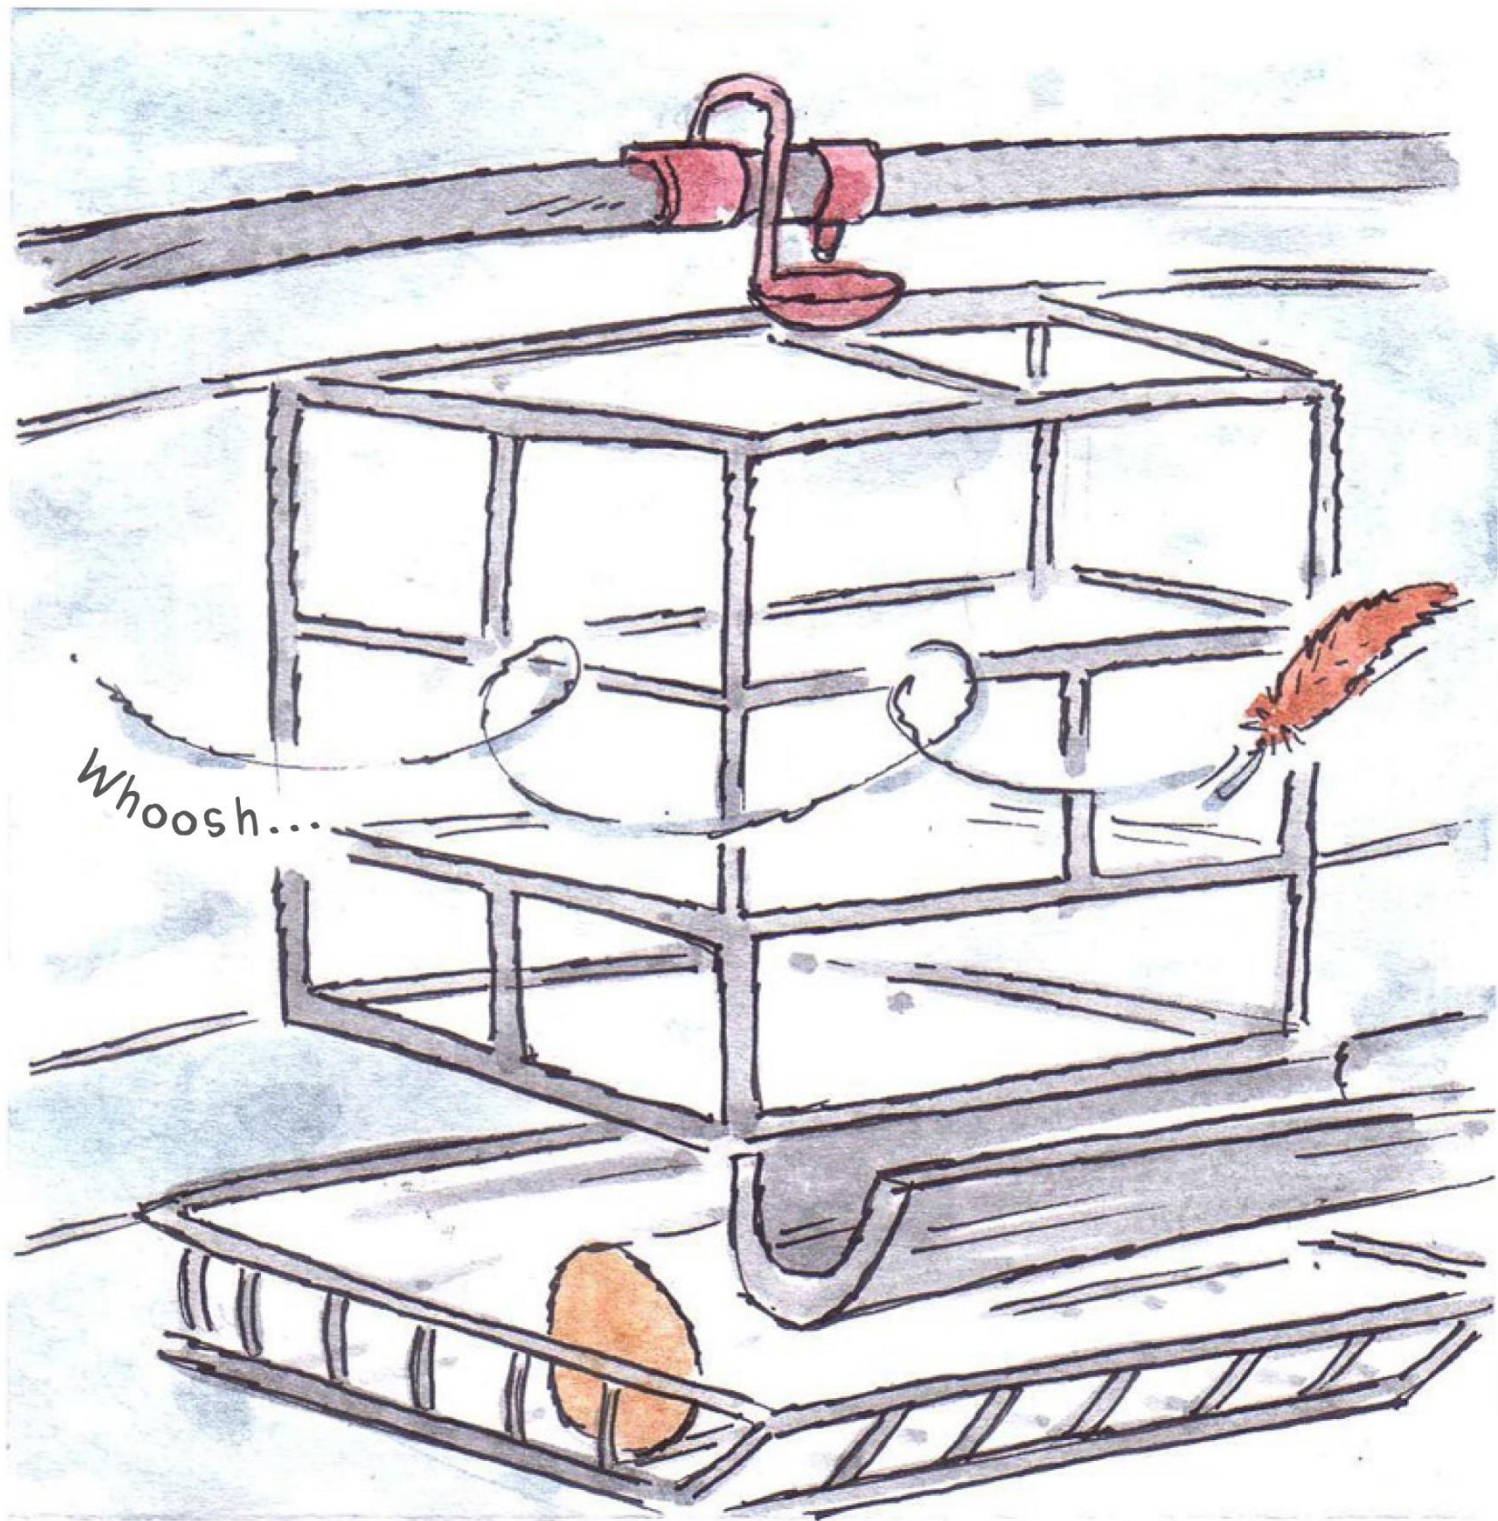

.....

Huu... Huu...
I'm so sorry. I
can't bear to
see this

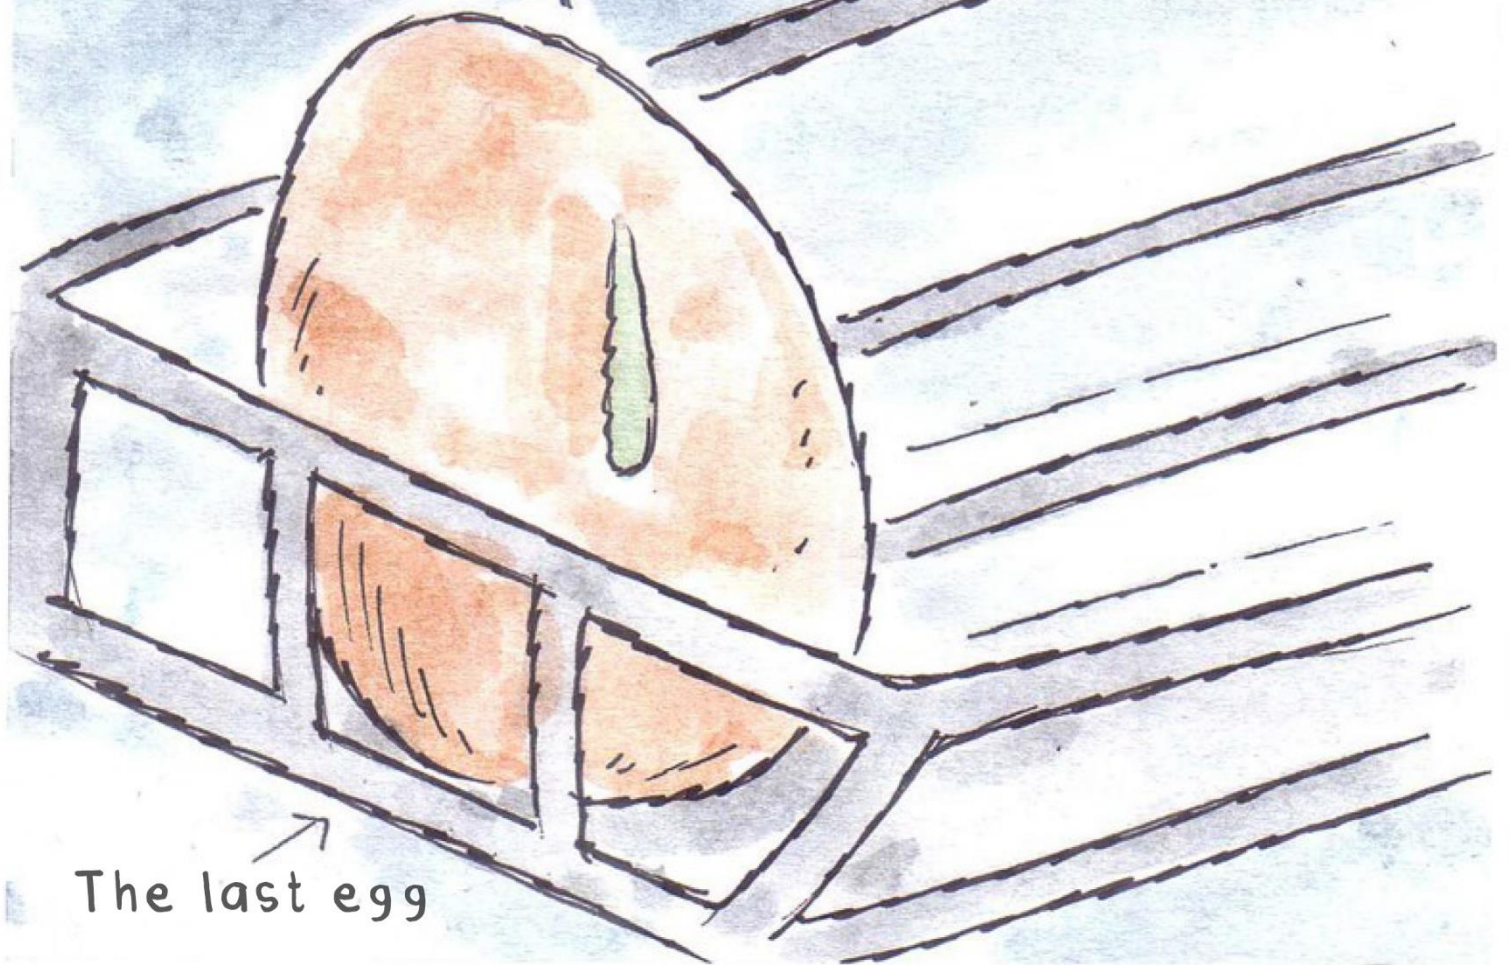

And I have to lay 2 eggs a day! Though I'm tired and sore, I'm forced to be productive! This is exploitation and such torture!

They are already dead

After almost 2 years of
being forced to supply
protein for humans

...this is the
reward I get

Stop battery
cages! Please...

Things you can do to help mother hens

Consume protein from plant based foods,
such as edamame, mushrooms, peas,
tofu and tempeh

Consume eggs sourced only from farm-
ers who have implemented cage free
systems for their layer hens.
(Cage Free Eggs)

Share this comic with any friends
who haven't read it before

Tell your friends that keeping
layer hens in battery cages is
cruel!
